Methodology

Data gathering and analysis

Critical analysis of international literature, scientific research and methodologies, policy and discourse

Link macro level to European Union context

- Collect and analyse existing qualitative and quantitative evidence-based research on cultural heritage impact carried out at the European, national, regional, local or sectorial level
- Expert consultations

Case studies and best practices

- Case studies from countries where the research project teams' home institutions are based
- Detailed analysis of the EU Prize for Cultural Heritage laureates projects approach towards socio-economic impact
